**Cc:** Place, Arletta; Gunn, Dr. Dolores; Health-2002-Director's Conference Room  
**Subject:** RE: West Lake/Bridgeton Landfill Rad Monitoring

Branden, Chris, Ron, Jonathan, and Dr. Hodges (Director, St. Louis County Departments of Public Works/H&T),

We would like to discuss the RFP details on Thursday 11/21/13, at 3:00PM. We have reserved the Director's 2<sup>nd</sup> Floor Conference Room at our offices in Berkeley if you want to visit us. If not, we have established a telephone conference capability:

Dial-In: 314-615-0622

Enter Access code: 061210

The telephone conference capability will accommodate up to 6 callers. Dr. Gunn & I will be in the Conference Room utilizing 1 of the 6 lines. So, this setup can work if each of the 5 invitees (& their respective staffs) utilize just one of the other available lines. If this won't work, please let me know & we will make other arrangements.

Please let me know if this date/time works for your agency's representation.

My thanks again for helping us with this mutually beneficial endeavor for the benefit of the residents of St. Louis County.

Mike

**Cc:** Place, Arletta  
**Subject:** West Lake/Bridgeton Landfill Rad Monitoring

Branden, Chris, Ron, and Jonathan,

In order to address the potential exposure concerns of its residents, St. Louis County Health Department has committed to contract for rad ( $\alpha$ ,  $\beta$ ,  $\gamma$ ) monitoring during the construction of the 'North Physical Barrier' (firebreak trench) at West Lake/Bridgeton. The County would like to ensure that the data gathered would be useful to all agencies involved. In that regard, Dr. Gunn (Director of the County Health Department) would like to teleconference with the 4 of you (or your designees) to discuss the details to be included in an RFP for County to use to hire a consultant to perform this work. Arletta Place, Dr. Gunn's Assistant, will be contacting you to set up a mutually agreeable date/time for the call.

I have already spoken to Jonathan Garoutte (MDHSS) regarding this work and he has graciously offered some suggestions and assistance. I anticipate a mutually beneficial project for all of us, but we do need to work out the details rather quickly.

I await your partnership in this endeavor.

Mike
